4/24/01AMENDMENTAssistant Commissioner of Patents
Washington, D.C. 20231

Dear Sir:

This paper is filed in response to the Official Action mailed October 13, 2000. A Petition for Extension of Time accompanies this Response. Should it become lost or detached, the Commissioner is authorized to deduct for the three (3) month extension from Deposit Account No. 01-0682.

Please amend the application as follows:

IN THE CLAIMS:

sub
c2
a

1. (Amended) A method for diagnosing glaucoma in a person, which comprises detecting aberrant alternate splice form of the human glucocorticoid receptor (GR β) expression or defects in a GR gene which encodes GR β in a biological sample from said person.

a2

3. (Amended) A method for diagnosing glaucoma in a person, which comprises detecting genetic changes in the GR gene leading to altered GR β expression in a biological sample from said person.
